

## Denton's Construction Guide 2019

### Denton's Construction Guide 2019

By | Jan 25, 2019

The City of Denton has thousands of miles of roadways, water, and wastewater lines, sidewalks and drainage systems to maintain and improve. This city-wide guide detailing short-term projects to fix immediate issues and long-term project to address Denton's growth and aging infrastructure.

# CITY OF DENTON CONSTRUCTION GUIDE 2019

## WELCOME TO THE CONSTRUCTION GUIDE

The City of Denton maintains thousands of miles of roadways, water and wastewater lines, sidewalks, and drainage systems, and over the next two years, Denton will be under construction as infrastructure is rebuilt and expanded city-wide.

Capacity is being added all over town, focusing on short-term projects to fix immediate issues and long-term projects to address Denton's growth and aging infrastructure. The City is dedicating more tax dollars and resources to infrastructure projects than ever before, and working strategically to improve the condition of our roads and get ahead of future mobility and utility challenges.

No one in Denton is immune from experiencing the inconvenience and frustrations that come with construction, and the City is working every day to provide meaningful construction information to all residents and businesses. This 2019 *Construction Guide* will serve as a valuable resource, keeping you informed about the many ways the City is working to improve Denton.

## STAY INFORMED WITH IMPROVING DENTON

The City has made a commitment to residents and visitors that Denton will be a great place to live, work, and play. With orange cones all over town, it's important to keep citizens updated on projects, track progress, and help relieve the stress of navigating in construction.

To help keep you informed and engaged, the City launched new tools through **Improving Denton** to share information about ongoing infrastructure and mobility projects.

- Visit [www.improvingdenton.com](http://www.improvingdenton.com) to get general information about current and upcoming projects, view construction maps, see current lane and road closures, and learn more about the capital improvement program.
- While on the website, sign up for **email notifications** to get messages directly to your inbox about major road projects, planned closures, and more. Through Improving Denton emails, the City will help keep you in the loop on both City and regional mobility projects.
- Check your mailbox for **project notifications**. If you live on or near a planned project, we'll reach out to you directly to provide project information, schedules, and contact information.
- Follow us on **social media**. We'll post information on Facebook, Nextdoor, and more. See page 8 for ways you can stay connected.
